At your service.

Created in Barcelona.

1953. The first SEAT rolls off our Barcelona production line and a whole country starts moving. More than 60 years later and we're moving people all over the world.

But Barcelona still inspires us. Its creative spirit runs through our veins. Feeds into every car we produce. (In fact, 50% of the energy we use to make our cars comes direct from Mediterranean sunshine). This is a city that never stops. And neither will we. Why? Because you have places to be.

Our global range of cars and product specifications varies from country to country. Please, visit your local SEAT website to know more about the product offer available for you.

Easy mobility.

The world is full of possibilities. SEAT makes it easy to take hold of them. Plot your own route. Set your own goals. Keep moving through your ever-changing life. It's what we do.

Because if it doesn't set you free, drive you forward, make things better, what's the point? If it's not easy, it's not mobility.

Living starts now.

There are those who follow the herd. Then there are those who choose to live. To feel every day. Roll their windows down. Turn the radio up. The ones who turn the mundane into the extraordinary. Like the SEAT Leon. Equipped with technology like Full LED headlamps and a Wireless Charger. A car designed for you to make the most out of every moment. No matter how small. Or big. Starting today.

Our global range of cars and product specifications varies from country to country. Please, visit your local SEAT website to know more about the product offer available for you.

Exterior design

Confidence is attractive.

An iconic exterior sharpened with aerodynamic lines. The SEAT Leon comes with a strong character, unmistakable on any street. Every inch is meticulously crafted to offer you a modern and ergonomic design. Not to mention state-of-the-art technology. Inside and out. All to empower your every moment on the road.

Our global range of cars and product specifications varies from country to country. Please, visit your local SEAT website to know more about the product offer available for you.

Exterior design

Life is full of extraordinary details.

And so is exceptional style. Like the 19" Alloy Wheels that make a statement on the streets. A hot-stamped front grille that's not afraid to turn heads. And a panoramic sunroof that says you're living it up.

Our global range of cars and product specifications varies from country to country. Please, visit your local SEAT website to know more about the product offer available for you.

Interior design

You. First.

When it comes to the SEAT Leon, it's all about you. Picture a driver-oriented dashboard with an 8" infotainment touchscreen. High-quality upholstery with an ergonomic design. Electric Parking Brake so you can sit back and relax. A spacious boot for anything and everything. Need we say more? It's time to put yourself first.

Our global range of cars and product specifications varies from country to country. Please, visit your local SEAT website to know more about the product offer available for you.

Technology

Pioneers don't settle for less.

The SEAT Leon is infused with technology. In every possible way. Full Link Technology connecting your smartphone to the car for a seamless driving experience. Wireless Charger, because who would say no to that? And the Start/Stop System that turns the engine off when idling to save gas. Now it's your turn to have it all.

Technology

Why go at all, if not all the way?

Your SEAT Leon's technology turns it up to 10, inside and out. Reverse while facing forward with the Rear View Camera. For extra peace of mind on the road, Front Assist and Pedestrian Protection detect potential collisions, alert the driver and brake if necessary. Taking on a tricky parking spot? Park Distance Control's front and rear sensors help guide you into place. It's all ready. Are you?

Safety

First things first.

There's nothing more important than your safety. That's why we take our technology seriously. Adaptive Cruise Control automatically regulates the distance between you and the car in front at high speeds. Traffic Jam Assist does the same but for lower speeds. Lane Assist looks after you with sensors, allowing the car to adjust steering in the event you drift out of lane.

Safety is a team effort.

Your safety is also the safety of others. So we go the extra mile. Pedestrian Protection activates emergency braking if sensors detect nearby movement and you can't react in time. The Tiredness Recognition System alerts you when you start to lose concentration. Traffic Sign Recognition displays all road signs, from speed limits to roadworks, so you don't miss a thing.

Our global range of cars and product specifications varies from country to country. Please, visit your local SEAT website to know more about the product offer available for you.

The best moments start with a choice.

Now's your chance to have it all. Style and comfort. Performance and safety. And the latest technology. The SEAT Leon. Fully equipped for the life you've always wanted.
